
Title: ALAGNER'S BOOK II

Author: Alagner

Magic Boomerangs: there and back again. These magical boomerangs are to the gargoyle race as the magical sword is to human warriors. Their most common weapon, boomerangs have the amazing ability to pass through walls and other solid objects and still return to the thrower. Excellent for hunting in the mountains.

Venom Dagger : the assassins tool. This shimmering green dagger is actually the enchanted tooth of a poisonous sea serpent, joined to the hilt of a regular dagger. Its envenomed blade injects the slow poison into its victim, but it frequently breaks. It is the perfect assassination weapon (see Alagners History, Assassination of Baron Johann IV (page 54)).

Stone Harpy: The Stone harpy is the creation of the twisted mind of the magus and paranoid lord of Spectran. It is reputed to be magically triggered by the approaching close approach of any creature.
